

ଓଡ଼ିଶା ରାଜ୍ୟ ମୁକ୍ତ ବିଶ୍ୱବିଦ୍ୟାଳୟ, ସମ୍ବଲପୁର, ଓଡ଼ିଶା
Odisha State Open University, Sambalpur, Odisha
Established by an Act of Government of Odisha.

ASSIGNMENTS

CSP-13, 14

(Theory & Practical)

SESSION: 2018-19

**ADVANCE DIPLOMA IN CYBER SECURITY
(ADCS)**

Please read the instructions carefully before attempting assignment questions.

INSTRUCTIONS FOR DOING ASSIGNMENTS

Dear Learner,

You are required to submit one assignment per course within the stipulated time in order to become eligible to appear in the term-end examination. The assignments will be evaluated by the counselors at your Study Centre. Please submit your assignment solutions to the Coordinator of your Study Center.

Purpose of Assignments:

1. Assignments are part of the continuous evaluation process in Open and Distance Learning (ODL) system. Due weightage is given to the marks/grades you obtain in assignments. This will help you for better performance in the term-end examination. If you secure good grades/marks in assignments, your overall performance will improve.

2. Assignments are also a part of the teaching-learning process in ODL system. Your assignment, after evaluation, will be returned back to you with specific and general comments by the evaluator. This will help you to know your strength as well as your weakness. Thus, it will establish a two-way communication between learner and evaluator.

How to Write Assignments:

Please read the instructions for writing the response of an assignment before you start writing your answer.

1. Write your name, programme code, course title, enrolment no. and study center name with code in the top sheet of the assignment answer booklet as per the format given below.

PROGRAMME TITLE:**ENROLMENT No.:**

NAME:.....

ADDRESS:.....

COURSECODE..... COURSETITLE:.....

ASSIGNMENT CODE:..... **SIGNATURE:**.....

STUDY CENTRE:**DATE:**

2. Before you attempt the assignments, please go through the course materials carefully, understand the same and write answers in your own language and style.
3. **Write the answers in your own handwriting.** Give sufficient margin in the left side of each page so that the evaluator will give comments on each paragraph/page.
4. Your handwriting should be neat and readable.

Weightage for each Assignments:

1. Each Theory Assignment will carry 15% weightage and each Practical Assignment will carry 10% weightage and term-end examination will carry 75% weightage.
2. Each assignment will be of 100 marks. But it will carry 25% weightage.
3. You have to score minimum pass mark i.e. 40% in each assignment. In case you do not submit assignment or get fail mark in assignment you have to re-submit in the next year.

SUBMISSION DATES FOR ASSIGNMENTS

Sl. No.	Course Code	Name of the Course	Date of Submission	Day (As per Calendar)
Theory				
1	CSP-13	Application Cyber Security	5th May 2019	Sunday
2	CSP-14	Network Cyber Security	5th May 2019	Sunday
Practical				
3	CSPL-13	Application Cyber Security Lab	5th May 2019	Sunday
4	CSPL-14	Network Cyber Security Lab	5th May 2019	Sunday

ASSIGNMENTS

Application Cyber Security (CSP-13)

(Theory)

Full Mark - 100

Group 'A'

Q. No 1 (Answer in one Word/Sentence)

Mark: 1 X 10 = 10

- What is VIRUS?
- Define Malware.
- What is SQL Injection?
- What do you mean by Authentication and Authorization?
- Give an example of Man-Made Disasters.
- What is Digital Signature?
- Name the types of Pen Testing.
- Name different Stages of Computer Forensics Process.
- What is the primary law in India dealing with cybercrime and electronic commerce?
- Name any two Cyber Security Solutions for Small Business.

Group 'B'

Q. No. 2 (Word Limit: 50 words)

Mark: 5 X 4 =20

- What are the characteristics of strong password?
- What is Heisen bug? Explain it.
- What is malicious code?
- What is Disaster Recovery Plan?

Group 'C'

Q. No. 3. (Word Limit: 200 words)

Mark: 10 X 4 = 40

- What is Digital Signature? What are its importance?
- Define Auditing. List different types of Auditing.
- Explain Cyber Security Managed Services.
- Define Computer Forensics. What are its benefits?

Group 'D'

Q. No. 4. (Word Limit: 250 words)

Mark: 15 X 2 = 30

- Define Hacking. Explain different types of Hackers.
- Write a brief notes on Control Objectives for Information and Related Technology.

ASSIGNMENTS

Network Cyber Security (CSP-14)

(Theory)

Full Mark - 100

Group 'A'

Q. No 1 (Answer in one Word/Sentence)

Mark: 1 X 10 = 10

- NSM Stands for?
- The software layer is focused on _____.
- What are the types of Network security threats?
- What is software based Firewall?
- What are the protocols used in email?
- Name any four Web Browser available in Market.
- URL Stands for?
- Define Server.
- What is SSID?
- What are the different WLAN design structures?

Group 'B'

Q. No.2 (Word Limit: 50 words)

Mark: 5 X 4 =20

- Explain the categories of Network Security threats.
- Explain the different header fields of MIME.
- Define Cookies. What are the contents of cookies?
- What do you mean by SQL Injection?

Group 'C'

Q. No3. (Word Limit: 200 words)

Mark: 10 X 4 = 40

- What are the types of Network Security Threats? Explain them.
- Explain briefly Secure Hypertext Transfer Protocol.
- Explain briefly Wireless Network Security protocol
- What are the Wireless Security Policy?
-

Group 'D'

Q. No4. (Word Limit: 250 words)

Mark: 15 X 2 = 30

- What is Intrusion Detection Systems? What are its Components?
- What are the security concerns for mobile devices? Explain it.

ASSIGNMENTS

(PRACTICAL)

ASSIGNMENTS

Application Cyber Security Lab (CSPL-13)

(Practical)

Full Mark – 100

Answer any Five (each question carries 20 marks)

1. Write down the steps to protect the personal computer system by creating User accounts with password.
2. Write down the steps to create a MS Word document and protect it with a password in MS WORD 2013.
3. Write down the steps to remove a password assigned to a document in MS WORD 20113
4. What are the various methods of protecting and securing databases? Explain it.
5. What are the guideline for setting secure password?
6. Write down the steps to hack a strong password.
7. Explain different password cracking techniques.

ASSIGNMENTS

Network Cyber Security Lab (CSPL-14)

(Practical)

Full Mark – 100

Answer any Five (each question carries 20 marks)

1. Write down the steps to install IDS in an Organization.
2. Write down the steps taken by an organization to reduce the risk of unauthorized access to wireless network.
3. Explain different design configurations of WLAN according to IEEE 802.11 standard?
4. Write down the steps to set Firewall Security in Windows.
5. What are the Inbound and Outbound Rules of Windows Firewall?
6. Write down the steps to open the Windows Firewall with Advanced Security.
7. Explain different wireless network components?
